Illegal holiday rental housing risk

Tags **Report** Surveillance and Enforcement

Amsterdam has limited living space; both for citizen houseboat to tourists, they need to meet certain requirements: a maximum of 90 nights per year and a maximum of 4 people at a time.

Not everyone adheres to those conditions. The municipality or rental platforms, who suspect that a home has been used for illegal holiday rental, can file a complaint. If a complaint is filed, employees of the department of Surveillance and Enforcement will investigate.
